Event Started: 8/5/2016 8:00 AM Stopped: 8/5/2016 12:00 PM ☐ Ongoing Event

		May have resulted in a violation of:	
Source Number:	S59-Tank, TK-1703	Permit:	
Abatement Device:		AQMD:	Reg. 8-5-320.4 and 8-5-112.1
Emission Point:		Other:	

979 Event Description: During normal perimeter observations, the BAAQMD inspector observed work being performed on in-service Tank 1703 that had not been relayed to the air district the required 3-days in advance of work comencement. The tank task force had the contract crew replacing the roof legs and did not realize that a notification was necessary. As a result, the inspector issued a Notice To Comply (NTC) to prevent a reoccurrance.

Probable Cause: Lack of knowledge of the applicable regulations, lack of communication.

Corrective actions or preventative steps taken: An NTC was issued by the inspector, the tank task force was advised that any future work required communication with the environmental department for review.
