88 are nearby.
Bike racks are located
outside.

LOCATION:

MetroCenter Auditorium, 101 8th St., Oakland

Ozone Working Group

Working together to reduce ground-level ozone in the Bay Area

BAAQMD, in cooperation with MTC and ABAG, have been working on the region's strategies for attaining and maintaining the national and California health-based 1-hour ozone standards.

We invite all interested individuals and organizations to join the Ozone Working Group (OWG) to discuss and provide input on this regional planning process.

At the September 28th Ozone Working Group meeting, we will discuss and receive comments on the Draft Ozone Control Measures, which are already posted online at <http://www.baaqmd.gov/pln/plans/ozone/2004OzoneStrategyDraftControlMeasures.asp>

Meeting agenda and any additional materials will be available online one week before the meeting. Please check our website at http://www.baaqmd.gov/pln/plans/ozone/2003_workgroup/index.asp

In September and October 2004, we will also be holding a series of evening community meetings in 7 Bay Area locations to present and discuss the Draft Ozone Control Measures and the District's new Community Air Risk Evaluation Program. Visit the District's homepage at <http://www.baaqmd.gov> for links to community meeting times and locations. Interested parties are invited to discuss the Draft Ozone Control Measures at the community meetings or at the September 28th Ozone Working Group meeting.
