Bay Area Air Quality Management District

Community Meeting to Develop Clean Air Strategies

We are inviting all interested individuals and organizations to help us develop strategies to reduce ozone air pollution in the Bay Area.

Ozone pollution is a health and quality of life issue. It affects us all; especially our children, the elderly, people with respiratory diseases, and even athletes who exercise outdoors.

BAY AREA
AIR QUALITY
MANAGEMENT
DISTRICT

This year, the Bay Area Air Quality Management District, in cooperation with the Metropolitan Transportation Commission and the Association of Bay Area Governments, will be preparing the 2004 Ozone Attainment Strategy and the 2003 Clean Air Plan—the region's strategies for attaining the national and California health-based one-hour ozone standards.
