

PRINTER MATERIAL USAGE INFORMATION
(In addition to Data Form S, complete one form for entire facility)

Complete the following table to provide annual usage information on a facility-wide basis for each different type of material used at your facility. Identify whether ink and varnish usages are given in gallons or pounds.

Submit a copy of the material safety data sheet (MSDS) for each material identified below.

Be advised that these usage values will be included as material usage limits in permit conditions issued with your permit to operate. So, be sure that annual usage values include allowances for reasonable growth over the next few years.

<i>Material</i>	<i>Name/Manufacturer</i>	<i>Annual Usage</i>
Ink		<i>(check one)</i>
		<input type="checkbox"/> gal <input type="checkbox"/> lb
		<input type="checkbox"/> gal <input type="checkbox"/> lb
		<input type="checkbox"/> gal <input type="checkbox"/> lb
		<input type="checkbox"/> gal <input type="checkbox"/> lb
Varnish		
		<input type="checkbox"/> gal <input type="checkbox"/> lb
		<input type="checkbox"/> gal <input type="checkbox"/> lb
		<input type="checkbox"/> gal <input type="checkbox"/> lb
		<input type="checkbox"/> gal <input type="checkbox"/> lb
Clean-up solvent, blanket wash, press wash, etc.		
		<input type="checkbox"/> gal
Fountain solution concentrate		
		<input type="checkbox"/> gal
		<input type="checkbox"/> gal
IPA		
		<input type="checkbox"/> gal

Mixed fountain solution formulation:

_____ : _____ : _____
 Water IPA Fountain Concentrate
