

BAY AREA  
AIR QUALITY  
MANAGEMENT  
DISTRICT

## PUBLIC NOTICE

October 29, 2004

To: Parents and guardians of students enrolled at the following school:

**Washington Elementary School**

All residential and business neighbors located within 1,000 feet of the proposed new or modified source of air pollution listed below

From: Bay Area Air Quality Management District

Re: Permit Application for the following source of air pollution:

Gasoline Dispensing Facility  
Chevron Product Company  
901 W. Cutting Boulevard, Richmond, CA 94804-2027

---

The Bay Area Air Quality Management District (the "District") is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source of toxic air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source.

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced source of air pollution. A description of the proposed project follows:

Increase of gasoline throughput at an existing Gasoline Dispensing Facility

This station is currently permitted to dispense 3.36-million gallons per year. The applicant is requesting to increase this limit to 9.36-million gallons per year. Existing equipment will remain unchanged, no additional nozzles or pumps are proposed.

The District has determined that the increase in health risks resulting from toxic air contaminant emissions from the proposed source are within acceptable levels, and that the project will comply with all other applicable air pollution control requirements. Accordingly, the District plans to issue a Permit to Operate for the proposed project.

If you are interested in getting more information on the District's evaluation of this proposed project, you may request copies of the applicable staff report by calling the District at the telephone number listed at the end of this notice. This information also can be viewed or downloaded from the District website at:
