All residential and business neighbors located within 1,000 feet of the proposed new sources of air pollution listed below

FROM: Bay Area Air Quality Management District

RE: Permit Application for the following sources of air pollution:

Two Emergency Standby Generators - Diesel Engines  
Cummins West  
14775 Wicks Blvd.  
San Leandro, CA 94577

---

The Bay Area Air Quality Management District (the "District") is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source(s) of toxic air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source(s).

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced sources of air pollution. A description of the proposed project follows:

Cummins West is applying for an Authority to Construct and/or Permit to Operate two Emergency Standby Generators-Diesel Engines. It will be used to generate power during emergency conditions and for reliability-related activities only.

**The District has determined that the increase in health risks resulting from toxic air contaminant emissions from the proposed sources are within acceptable levels, and that the project will comply with all other applicable air pollution control requirements. Accordingly, the District plans to issue a Permit to Operate for the proposed project.**

If you are interested in getting more information on the District's evaluation of this proposed project, you may request copies of the applicable staff report(s) by calling the District at the telephone number listed at the end of this notice. This information also can be viewed or downloaded from the District website at:
