

P.S. Our
window sills are
black dust (tire
residue?) I am a
50 year resident &
remember clean air &
mainly in the 60's!

Ms. Bui,
my only concern is that
the air quality NOT be
compromised any more than
it is by #85 \pm #250 encircling
our homes. The admixture
may be too much.
Thank you for monitoring
this.
