

BAY AREA AIR QUALITY MANAGEMENT DISTRICT

In 2012, the Air District contracted with Lightmaker for an assessment of the current Air District website. Lightmaker produced two documents: 1) An assessment of the Air District website and, 2) A Roadmap for Redesign and Rebuild of the website. Both of these documents represent Lightmaker's views about the Air District website. The Air District has made these documents available so that all bidders are provided with similar information.

These documents are not bid specifications for the Air District website redesign and rebuild. The Air District is conducting this RFP to solicit proposals which reflect a variety of strategies and approaches. The Air District is not wedded to any particular approach for the website redesign and rebuild project, and invites all contractors to submit their own unique proposals. No contractor will be excluded simply because it has worked with the Air District before.
