

RFP 2014-001 Bicycle Rack Voucher Project Questions and Answers

**Q1: Is there a specific bike rack design that the districts wants?**

A1: Since the BRVP aims to provide public agencies with many options for discounted racks, the Air District is not seeking just one design. That being said, proposed equipment must comply with the two rack requirements found on page 7 and 8 of the RFP.

**Q2: Can the district accept multiple designs from one vendor. For instance, we believe one design doesn't fit everyone's needs.**

Q2: Yes, a vendor can submit more than one rack option. Each vendor should provide a single submission (package) which may include proposals for one or more rack models and/or options. Each rack type should be listed as a separate line on the Cost Proposal Summary Template.

**Q3: Can you one vendor submit different designs each with different prices/bike slot?**

A3: See response to question #2.

**Q4: Can multiple designs and prices be accepted with the city agency deciding on which fits their specific need?**

Q4: Yes, public agencies may select more than one rack model.
