Re: Overview of the Air District's Advisory Council

RECOMMENDED ACTION

None; receive and file.

BACKGROUND

Senate Bill 1415 (SB1415), effective July 1, 2015, reconstituted the membership of the Bay Area Air Quality Management District (Air District) Advisory Council to include seven appointed members “skilled and experienced in the fields of air pollution, climate change, or the health impacts of air pollution. Members shall be selected to include a diversity of perspectives, expertise and backgrounds.” The Council is “to advise and consult with the bay district board and the bay district air pollution control officer in effectuating the purposes of” the Air District.

ADVISORY COUNCIL OPINION

The Council deliberated during six full-day meetings on its first question regarding the efficacy of greenhouse gas emissions caps at local refineries.

Speakers representing a variety of viewpoints addressed the Council, including:

- California Air Resources Board
 - Richard Corey, Executive Officer
 - Sam Wade, Chief, Transportation and Fuels Branch
 - Jason Gray, Manager, Climate Change Market Monitoring Section
- California Energy Commission
 - Gordon Schremp, Senior Fuels Specialist
- Stakeholders
 - Communities for a Better Environment (CBE) – Greg Karras
 - 350 Bay Area – Letter
 - Gary Rubenstein, Sierra Research on behalf of CCEEB and WSPA

Based on the material that it considered, its deliberations, and its collective expertise and experience, the Council reached the following conclusions:

- **Conclusion on Key Question:** The Council concluded that facility-level caps on Bay Area refinery GHG emissions are unlikely to be effective in mitigating global climate change. GHG reduction policies are effective in providing climate protection only if total global GHG emissions are reduced, and if leakage occurs (that is, GHG emissions are shifted outside of the Bay Area to other locations instead of being reduced), which is likely with refinery GHG caps, such caps would not provide such protection.
- **Policy Recommendation:** The Council recommended that the Air District identify, systematically evaluate, prioritize, and adopt Bay Area GHG reduction policies and measures, including ones directed at refineries as appropriate, that are effective in reducing total global GHG emissions, minimize leakage risk, and complement and reinforce GHG reduction measures adopted by CARB (e.g., GHG cap-and-trade and methane reduction programs), USEPA, and others.
- **Policy Recommendation:** The Council recommended that the Air District address community concerns about toxics and criteria pollutants directly, through established programs, rather than indirectly as co-benefits of GHG reduction policies. The approach embodied in proposed rule 11-18 is consistent with this recommendation.

ADVISORY COUNCIL NEXT AREA OF FOCUS

The Council has been focused on identifying strategies that will be most effective in improving air quality related health outcomes in the Bay Area. In particular, the Council is focusing on local effects, as opposed to basin-wide criteria pollutants, and especially on the effects of fine particulate matter. This focus is consistent with the Air District's work related to Rule 11-18, and to AB 617.

Re: Update on Assembly Bill 617 (AB 617)

RECOMMENDED ACTION

None; receive and file.

BACKGROUND

The California Legislature passed, and Governor Jerry Brown signed, a number of key legislative actions that included AB 617. This bill specifically addresses concerns about local air quality by requiring:

- Emission reduction plans for overburdened communities;
- Additional air monitoring in impacted communities;
- A state-wide clearing house for Best Available Retrofit Control Technology (BARCT);
- Adoption of rules requiring the latest BARCT for all criteria pollutants for which an area has not achieved attainment of California Ambient Air Quality Standards; and
- Uniform state-wide reporting of emissions inventories.

DISCUSSION

Staff will update the Executive Committee and Advisory Council on staff's initial work regarding AB 617 implementation, including discussions with the California Air Resources Board and how this moves the Air District's program beyond the target of attainment for criteria pollutants.

BUDGET CONSIDERATIONS/FINANCIAL IMPACTS

Staff has evaluated the impacts of AB 617 and has included a request for additional staffing and other resources in the Fiscal Year Ending 2019 proposed budget.
