## **Air District issues another Spare the Air Smog Alert** *Commuters urged to find alternatives to driving alone*

**SAN FRANCISCO** – Today, the Bay Area Air Quality Management District is issuing its second Spare the Air Alert for smog in 2015.

**Air quality is forecast to be unhealthy tomorrow, Wednesday, July 29.** Another day of light winds, combined with high temperatures and motor vehicle exhaust, are expected to cause unhealthy ozone accumulation in the Bay Area.

“Another day of extreme heat will keep smog levels high in the Bay Area,” said Jack Broadbent, executive officer of the Air District. “Tailpipe exhaust is the biggest contributor to smog so we’re asking Bay Area residents to leave their cars at home and find a better way to work rather than driving alone.”

Nearly 40 percent of Bay Area smog pollution and greenhouse gases are from passenger vehicles. The single most effective way for residents to reduce smog pollution is to drive less. Air District survey results find that Bay Area employees are more likely to adopt alternatives to driving alone when encouraged to do so by their employer. Bay Area employers with 50 or more full-time employees are now required to offer commuter benefits to their employees. For more information about the Commuter Benefits Program, visit [511.org](http://511.org) and click on Bay Area Commuter Benefits Program.

*Spare the Air Alerts* are issued when ozone pollution is forecast to reach unhealthy levels. Ozone, or smog, can cause throat irritation, congestion, chest pain, trigger asthma, inflame the lining of the lungs and worsen bronchitis and emphysema. Long-term exposure to ozone can reduce lung function. Ozone pollution is particularly harmful for young children, seniors and those with respiratory and heart conditions. When a *Spare the Air Alert* is issued, outdoor exercise should be done only in the early morning hours when ozone concentrations are lower.

To improve air quality, residents are encouraged to walk, bike, carpool or take transit instead of driving alone, not just on *Spare the Air* days, but every day. Residents can visit [www.stacommuetips.org](http://www.stacommuetips.org) to find a list of commute programs and incentives available where they live and work.

To find out when a *Spare the Air Alert* is in effect, residents can register for email AirAlerts at [www.sparetheair.org](http://www.sparetheair.org), call 1(800) HELP-AIR, download the *Spare the Air* App or connect with *Spare the Air* on Facebook or Twitter.

**There is no free transit tomorrow and there is no wood burning ban in place.**

The Bay Area Air Quality Management District ([www.baaqmd.gov](http://www.baaqmd.gov)) is the regional agency responsible for protecting air quality in the nine-county Bay Area. For more information about Spare the Air, visit [sparetheair.org](http://sparetheair.org).
