**Certified* means a single source test has demonstrated each boiler meets the application emission limits at various firing rates; however, it does not guarantee the devices will always meet those limits-that is dependent on how each individual device is tuned, etc., and it is always the responsibility of the owner/operator of the device to ensure it meets the applicable emission limits.

**Boiler is certified compliant with Regulation 9, Rule 7 at low and high fire only.

***All Brandford White Brute Mega Tech branded Boilers are identical to the Laars Heating System models Certified (BLR-068, BLR-069, BLR-070, BLR-071, BLR-081, BLR-092)
