

Known Issues

We recognize that you may encounter some unforeseen impacts as we transition to the new system. We are working diligently to make the transition as smooth as possible and we appreciate your patience. We will also rely on your feedback to identify problems that we did not find. Please e-mail your feedback to PermitHelp@BAAQMD.gov.

Here is a list of known issues:

- If required, Data Update requests for **dry cleaning facilities** will continue to be sent and submitted by mail.
- A person either has full access or no access. If you allow outsiders temporary access to your facility (e.g., to a submit application on your behalf), they will be able to make any changes at your facility until access is removed.
