Weyman Lee, PE
Senior Air Quality Engineer

939 Ellis St.
San Francisco, CA 94109

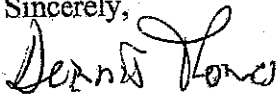

Dear Bay Area Air Quality Management District,

Please deny the proposed Prevention of Significant Deterioration Permit for the Russell City Energy Center.

This power plant proposed by Calpine would be the fifth largest polluter in the Bay Area, emitting 1.8 million tons of pollution and greenhouse gases per year.

Support cleaner alternatives such as solar or wind energy.

Sincerely,

Dennis Thomas
147 St. Germain
Pleasant Hill, CA 94523
