Attn: Daniel Smith, Public Information Officer

Re: Russell City Energy Center

Dear Mr. Smith,

I represent 140 homeowners of the Skywest Homeowners Association in Hayward, California. As tax payers of Alameda County and the State of California for over 30 years we oppose the installation of the Russell City Energy Center as it will adversely impact our air quality and quality of life in our neighborhood.

The close proximity to the Hayward Executive Airport creates a safety hazard for the aircraft flying in the area.

We urge you to consider other locations that are more suitable for this type of energy facility.

Please feel free to contact me should you have any questions.

Sincerely,

Alan Franke - Skywest HOA Board of Director
