Subject: Hayward Russell Energy Center

To Mr. Lee,

I am a Hayward resident who is opposed to the building of the Natural Gas Plant at the Hayward Shoreline. I have lived in Hayward for 51 years and I truly believe that this plant will be devastating to the environment and this is an atrocity. Why don't you try this in a higher social economic area such as Danville or Walnut Creek and see how the citizens of those cities respond? I will be passing the word out to all my Hayward friends and colleagues who are teachers and educators to not allow this to happen to Hayward. Our beautiful shoreline will be destroyed.

Sincerely,

Anna Maria Torres
