Subject : Winter Spare the Air Alert for Tuesday, February 3 through noon tomorrow
Date : Tue, Feb 03, 2009 12:07 PM

The Bay Area Air District has issued a Winter Spare the Air Alert for Tuesday, February 3, which bans wood burning both indoors and outdoors through noon tomorrow.

Air quality in the Bay Area is forecast to be unhealthy. It is illegal for Bay Area residents and businesses to burn wood and manufactured firelogs in fireplaces, wood stoves and inserts, pellet stoves, and outdoor fire-pits. This wood-burning ban will be in effect for Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, southern Sonoma and southwestern Solano Counties.

You will receive an AirAlert email each day that a Winter Spare the Air Alert is in effect.

Winter air pollution is mainly caused by small particle pollution or particulate matter (PM) from wood smoke. Smoke from wood-burning fires is linked to illnesses such as asthma, bronchitis and lung disease, and is especially harmful for children and the elderly.

For more information about the wood burning rule, or to check before you burn, visit www.sparetheair.org or call 1-877-4-NO-BURN.

There is NO free transit program during the winter Spare the Air season.

Get free driving credits from City CarShare when you pledge to Spare the Air. Visit www.sparetheair.org for details.

Dear Weyman Lee,

Please do not issue a permit to allow
The Russell City Energy Center to be built in
Hayward! As you can see in my e-mail
above - We already have too many particulates
in our air.

Will this energy center shut down
on "Spare the Air" days? Really???

Respectfully submitted,

Barbara Stilwell
