Subject: Permit for the Russell City Energy Center

Dear Sir / Madam:

My question is how many times do we have to fight this battle? I don't want to waist your time reading pages and pages as to why we should not have this in our city. I think you already know why. Please do not issue this permit. We do not need the additional pollution in our city. Please do not issue this permit. Fadi Dib, 25084 Meredith Ct, Hayward, CA 94545. Thank you.
