Weyman Lee, P.E.
Bay Area Quality Management District
939 Ellis Street
San Francisco, CA 94109

Dear Mr. Lee,

We have received information regarding a public hearing and comment opportunity (Sept. 2) for the Proposed Air Quality Permit for Russell City Energy Center.

Please consider our opinion that this Energy Center should NOT be built at the proposed site in Hayward at all. Please find a more suitable location where the bothersome and dangerous environmental affects of such a plant would not harm local residents or those in the path of the bay breeze which would carry the pollution.

Thank you,

Ruan Frenette and Lance Nordstrom
1158 Citron Way
Hayward, CA 94545
