Subject: Russell City Energy Center

September 11, 2009

Dear Mr. Weyman:

I am vehemently opposed to the building of the Russell City Energy Center. As a 27-year resident of Hayward, living within one mile of the proposed plant AND a staff member at near by Chabot College, I will be exposed to the inevitable toxins from this plant 24 hours a day, seven days a week! If this proposed plant is approved, I do not think this would be a place you and your family would choose to live and attend schools.

I urge you to oppose the application of Russell City Energy Center Power Plant Project.

Sincerely,

Debra Kling  
Hayward, CA 94545
