Subject: Russell City Energy Center  
Dear Mr. Weyman,

I am a 51 year old student at Chabot College in Hayward. I want you to know that

I am completely, utterly, and profoundly in objection to the Russell power plant.

I do not wish to be poisoned by this facility, I do not wish to develop cancer due to this

facility's noxious emissions.

I have read and fully understand the data that has been released concerning this facility

and, without getting into the details, I must in all conscience oppose this facility.

Sincerely,

Randolph W.  
Chabot

Murrow  
College Student

I
