Subject: power plant

Mr. Lee,

This power plant is definitely not a good idea. From my understanding this plant will be at ground zero and will expose toxic chemicals. Have you ever seen Erin Brochovich? Its very possible you will have law suits on your hands. PG&E is a big coming and they loss millions of dollars in that pariticular law suit. This country is already a mess and in the toilet financially. You would only be contributing to the problem. I guess you would have to give me some real exceptional reasons to build this power plant.

Thanks for listening.
