Subject: prevent the powerplants from destroying the innocent

Hello,

I am a student at chabot college and live in oakland. As much as this situation wont bother me none, it will to all the innocent college and upcoming students and around the area. I cannot see how anyone think this is right...please tell me in what way we and the earth will benefit from this?

This powerplant will not even provide us, in the area, energy but health diseases. why is this necessary? To only benefit you from gaining money, what about the family before you and their future?

This is just adding more to global warming, at least provide us citizens a windplant or solar power plant. Just not this, please, we're all begging you. This powerplant will only hurt us in the future and you know it.

Please stop the arrogance and the plant from destroying innocent people and the future from collapsing. Please think twice about this and be the hero of not only hayward but the bay area.

Thanks and God bless,
Cindy Friely
