Subject: power plant decision

Mr. Lee,

I strongly oppose that this power plant be built in Hayward and even near Chabot College. We already have to breath in pollutants everyday and yet you want to add more pollutants in the air near schools, parks and businesses. I have lived in Hayward all my life and we do not need a power plant in our back yards. This is a ridiculous decision and I we should have to go to college and suck in pollutants that can be prevented from making just to make millions of dollars that will kill us.

NO TO THE POWER PLANT IN HAYWARD!!!!
