Subject: Oppose building the plant near school

Dear Mr. Lee,

As a dental hygiene student in Chabot College, I am strongly opposing the idea of building the power plant near Chabot College and the close by Middle School. The toxic air emitted would surround the adjacent area, and will directly affect the health of thousands of student at both Chabot College and the Middle school. Please consider again and do not sacrifice our young future generation for the plant. I believe there would be a place away from Chabot college and the Middle School to build this plant.

Thank you.

Anh Huynh, RDA, A.S.

Dental Hygiene Student class of 2011
