Subject: Spare our Air

I respectfully request that you not ADD more pollution to the air we have to breathe in Hayward. Please do not issue the permit for the Russell City Power Plant. Your mandate is to protect the air in the Bay Area not to add more pollutants for us to live with.

Do not issue this permit and still call me to "Spare the Air" by not burning a log in my fireplace; in fact, should you go ahead and bow to the Union demands for this Power Plant then you never again call for Spare the Air days, as your doing so will be most hypocritical.
