Subject: Opposition to the Power Plant

Mr. Lee,

I would like to add my voice to the opposition to the Power Plant proposed to be built in Hayward near my home, many schools (among those effected are a California State University, East Bay, Chabot Community College and elementary and middle school) senior living communities, large shopping centers, two Kaiser Permanente health facilities, hospitals and many private homes. I am fearful to have the toxic fumes fall on all of these communities of people. Please understand the serious situation that this plant would inflict upon our community. Please oppose it.

Sincerely,

Jeannette Monroe
