Kathleen,

Yogesh Doshi from our Central Office forwarded your email. We have not issued any new permit for power plant since CPV Warren. CPV Warren facility is now owned by Dominion Resources. They will not be constructing the facility as permitted for CPV Warren. However, they have submitted a new application to build the power plant at the same site as CPV Warren with a 3x3x1 combined cycle unit. Dominion is also requesting that permit allow three optional plant configurations. Please contact Anita Riggleman at (540) 574- 7852 if you want a copy of the application.

Thanks.

Janardan
