Dear Mr. Douglas:

The Bay Area Air Quality Management District is providing an update on its review of the permit application for the Oakley Generating Station. The Air District is awaiting additional information from the applicant who will be submitting new emissions data and an updated air quality modeling analysis. These amendments must be reviewed prior to filing the Preliminary Determination of Compliance. We will keep the CEC informed on the progress of the District's review. In the meantime, the CEC may consider revising its Committee Schedule, which originally expected the Air District to file the Preliminary Determination of Compliance on December 30, 2009.

If you have any questions on this matter, please call Kathleen Truesdell, Air Quality Engineer II, at (415) 749-4628, fax (415) 749-5030, or e-mail ktruesdell@baaqmd.gov.

Very truly yours,

Barry G Young
Air Quality Engineering Manager
Permit Evaluation Section
Engineering Division
