

BAY AREA
AIR QUALITY
MANAGEMENT
DISTRICT

PUBLIC NOTICE

March 9, 2010

TO: Parents or guardians of children enrolled at the following school(s):

**Redwood High School
San Andreas High School
Tamiscal High School**

All residential and business neighbors located within 1,000 feet of the proposed new or modified source(s) of air pollution listed below.

FROM: Bay Area Air Quality Management District

RE: Permit Application # 21108 for the following source of air pollution:

**Stationary Cogeneration System - Natural Gas Fired Engine
Tamalpais Union High School District (Redwood High School)
395 Doherty Drive
Larkspur, CA 94939**

The Bay Area Air Quality Management District (the “District”) is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source(s) of toxic air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source(s).

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced source of air pollution. A description of the proposed project follows:

Tamalpais Union High School District has applied for an Authority to Construct and/or Permit to Operate a Natural Gas Engine Powered Co-generation System at Redwood High School. The system will be used to continuously generate electric power and heat for their facility.

The District has determined that the increase in health risks resulting from toxic air contaminant emissions from the proposed source and a recently permitted emergency diesel generator set are within acceptable levels, and that the project will comply with all other applicable air pollution control requirements. Accordingly, the District plans to issue a Permit to Operate for the proposed project.

If you are interested in getting more information on the District's evaluation of this proposed project, you may request copies of the applicable staff report(s) by calling the District at the telephone number listed at the end of this notice. This information also can be viewed or downloaded from the District website at:
