Re: Revision of Synthetic Minor Permit for Facility A0055,  
Lockheed Martin Space Systems Company

Dear Ms. Jordan:

This is to inform you that the District is issuing a revision to the synthetic minor operating permit for the facility referenced above.

In response to the facility's request, federally enforceable permit conditions limiting greenhouse gases emissions on a CO<sub>2</sub> equivalent basis to less than 90,000 tons per year has been added to the permit.

The revision is effective as of the date of this letter. The synthetic minor permit evaluation and conditions are attached.

The District will also notify the California Air Resources Board and the facility in writing of this permit action.

If you have any questions regarding this matter, please call Greg Stone, Air Quality Engineering Manager, at (415) 749-4745.

Very truly yours,

Signed by Jim Karas
