PUBLIC NOTICE

August 22, 2012

TO: Parents or guardians of children enrolled at the following schools:

Montague Elementary School

All residential and business neighbors located within 1,000 feet of the proposed new or modified source of air pollution listed below.

FROM: Bay Area Air Quality Management District

RE: Permit Application #24405 for the following sources of air pollution:

**Wipe Cleaning Operations
CSL Operating, Inc.
529 Aldo Avenue
Santa Clara, CA 95054**

The Bay Area Air Quality Management District (the “District”) is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source of hazardous air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source.

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced source of air pollution. A description of the proposed project follows:

CSL Operating, Inc. has applied for an Authority to Construct and/or a Permit to Operate a wipe cleaning operations source. This cleaner will be used to rinse metal parts which are fabricated in the facility with isopropyl alcohol.

If you are interested in getting more information on the District's evaluation of this proposed project, you may request copies of the applicable staff report(s) by calling the District at the telephone number listed at the end of this notice. This information also can be viewed or downloaded from the District website at:
