

California Environmental Quality Act (CEQA)

NEGATIVE DECLARATION

CEQA LEAD AGENCY:

Bay Area Air Quality Management District

PROJECT TITLE AND PERMIT APPLICATION NUMBER:

Phillips 66 Refinery Marine Terminal Project (Permit Application 22904)

PROJECT LOCATION:

Phillips 66 Refinery (Plant #21359/Site #A0016)
1380 San Pablo Ave
Rodeo, CA 94572

PROJECT DESCRIPTION:

The Phillips 66 Refinery Marine Terminal Project would be located at the existing Phillips 66 Refinery Marine Terminal, which is located in the Carquinez Strait on the northwest corner of the refinery. The address of the refinery is 1380 San Pablo Ave., Rodeo, CA.

The Phillips 66 Refinery has submitted an application for a revised Permit to Operate for the proposed Marine Terminal project to the Bay Area Air Quality Management District (BAAQMD or District).

The purpose of the proposed project is to increase in the number of ships that bring crude oil and gas oil to the marine terminal at the Phillips 66 refinery from 36 to 59 ships in order to increase the permitted annual amount of crude oil and gas oil brought over the marine terminal from 11.2 to 18.7 million barrels/year. No construction or physical change to the marine terminal or other equipment would be necessary for this increase.

PROPOSED FINDING:

Pursuant to the California Environmental Quality Act (Public Resources Code Section 21000, *et. seq.*) the District is the Lead Agency for the described project. The District has prepared an Initial Study, which accompanies this Negative Declaration and is incorporated by this reference, and, on the basis of the study, has determined that the proposed marine terminal project will not have any significant impacts.

MITIGATION MEASURES:

None.
