

BAY AREA
AIR QUALITY
MANAGEMENT
DISTRICT

PUBLIC NOTICE

July 22, 2014

TO: Parents or guardians of children enrolled at the following school(s):

Mills High School

All residential and business neighbors located within 1,000 feet of the proposed new or modified source(s) of air pollution listed below.

FROM: Bay Area Air Quality Management District

RE: Permit Application #26034 for the following source(s) of air pollution:

**Soil Vapor Extraction Operation
Union Oil Company of California**

**5 El Camino Real
Millbrae, CA 94030**

The Bay Area Air Quality Management District (the “District”) is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source(s) of toxic air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source(s).

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced source(s) of air pollution. A description of the proposed project follows:

On behalf of Union Oil Company of California, Stantec Consulting Services has applied for an Authority to Construct and/or Permit to Operate for a new soil remediation project. To remedy an existing contamination problem, a Soil Vapor Extraction and Treatment System has been proposed for this site. Gasoline was found to be present in the surrounding soil.

Union Oil Company of California has proposed a system consisting of a vacuum blower to extract gasoline vapors from wells drilled at the site. Treatment of the extracted vapor will be accomplished by thermal oxidation and/or carbon adsorption. Emissions from the proposed source will be significantly controlled.

If you are interested in getting more information on the District's evaluation of this proposed project, you may request copies of the applicable staff report(s) by calling the District at the telephone number listed at the end of this notice. This information also can be viewed or downloaded from the District website at:
