PUBLIC NOTICE

May 12, 2014

TO: Parents or guardians of children enrolled at the following school(s):

Wilson Elementary Elementary

All residential and business neighbors located within 1,000 feet of the proposed new or modified source(s) of air pollution listed below.

FROM: Bay Area Air Quality Management District

RE: Permit Application #26094 for the following source(s) of air pollution:

**Batch Coffee Roaster, Loring Kestrel S35
Catahoula Coffee Company
12472 San Pablo Avenue
Richmond, CA 94805**

The Bay Area Air Quality Management District (the “District”) is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source(s) of toxic air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source(s).

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced source(s) of air pollution. A description of the proposed project follows:

Catahoula Coffee Company is applying for an Authority to Construct and/or Permit to Operate a batch coffee roaster that will be fueled by natural gas. The coffee roaster will have a coffee throughput of 520,000 lbs/yr.

PRELIMINARY EVALUATION

The District has evaluated the permit application for the proposed project and has made a determination that the project is expected to comply with all applicable District, state, and federal air quality-related regulations, including the health risks resulting from toxic air contaminant emissions. The preliminary recommendation is to issue a permit for this project. After considering all comments received, the District will make a final determination.
