All residential and business neighbors located within 1,000 feet of the proposed new or modified source(s) of air pollution listed below.

FROM: Bay Area Air Quality Management District

RE: Permit Application #26416 for the following source of air pollution:

**Air Sparge/ Dual Phase Extraction System Operation
EXXON MOBIL OIL CORPORATION
1201 Tennessee Street
Vallejo, CA 94590**

The Bay Area Air Quality Management District (the “District”) is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source(s) of toxic air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source(s).

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced source(s) of air pollution. A description of the proposed project follows:

On behalf of Exxon Mobil Oil Corporation, Cardno ERI has applied for an Authority to Construct and/or Permit to Operate a Soil Vapor Extraction System Operation abated by an Electric Catalytic Oxidizer or Carbon Adsorption Vessels (2 nos.). The system will be used to remediate the contaminated soil at the former gasoline station site.

If you are interested in getting more information on the District’s evaluation of this proposed project, you may request copies of the applicable staff report(s) by

939 Ellis Street • San Francisco 94109 • 415.771.6000 • www.baaqmd.gov

calling the District at the telephone number listed at the end of this notice. This information also can be viewed or downloaded from the District website at:
