

BAY AREA  
AIR QUALITY  
MANAGEMENT  
DISTRICT

# PUBLIC NOTICE

June 30, 2016

TO: Parents or guardians of children enrolled at the following school:  
**Fusion Academy: Los Gatos**

**St. Mary's School**

All residential and business neighbors located within 1,000 feet of the proposed new source of air pollution listed below.

FROM: Bay Area Air Quality Management District

RE: Permit Application #27760 for the following source(s) of air pollution:

**Soil Vapor Extraction System, abated by A-1  
A-1: Activated Carbon Vessels in Series**

**McCarthy Santa Cruz Avenue, LLC  
216 N Santa Cruz Ave  
Los Gatos, CA 95030**

---

The Bay Area Air Quality Management District (the "District") is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source(s) of toxic air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source.

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced source of air pollution. A description of the proposed project follows:

*AEI on behalf of McCarthy Santa Cruz Avenue, LLC has applied for an Authority to Construct and/or Permit to Operate a Soil Vapor Extraction System that will be used to remove perchloroethylene from the contaminated soil under the building located at 216 North Santa Cruz Avenue, Los Gatos, CA 95030. The emissions from the source are*

*abated by two 1000-pound carbon vessels in series. Other Toxic Air Contaminant emissions from the site are insignificant.*

***PRELIMINARY EVALUATION***

The District has evaluated the permit application for the proposed project and has made a preliminary determination that the project is expected to comply with all applicable District, state, and federal air quality-related regulations, including the health risks resulting from toxic air contaminant emissions. The preliminary recommendation is to issue a permit for this project. After considering all comments received, the District will make a final determination.

***ADDITIONAL INFORMATION***

If you are interested in getting more information, you may request copies of the District's evaluation report by calling the District at the telephone number listed at the end of this notice. This information is also accessible on the District website at:

<http://www.baaqmd.gov/permits/public-notices>

***PUBLIC COMMENT PERIOD***

**There is a 30-day period for public response to this proposal. If you wish to comment on the proposed project, you may do so in writing or by e-mail. Alternatively, you may call and leave a telephone message up to one minute in length. Please leave your name and telephone number so that a District staff member may respond to your message.**

Please use the following contact information if you would like to comment on the proposed project:
