

BAY AREA
AIR QUALITY
MANAGEMENT
DISTRICT

PUBLIC NOTICE

September 19, 2016

TO: Parents or guardians of students enrolled at the following school(s):

John O'Connell High School

Saint Charles School

All residential and business neighbors located within 1,000 feet of the proposed new or modified source(s) of air pollution listed below.

FROM: Bay Area Air Quality Management District

RE: Permit Application #28010 for the following source(s) of air pollution:

**Portable Soil Vapor Extraction System,
abated by Thermal/Catalytic Oxidizer**

**Calclean Inc
793 South Van Ness Avenue
San Francisco, CA 94110**

The Bay Area Air Quality Management District (the "District") is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source(s) of toxic air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed source(s).

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced source(s) of air pollution. A description of the proposed project follows:

Calclean Inc has applied for a Change of Permit Conditions to allow operation of a portable soil vapor extraction operation at 793 South Van Ness Avenue, San Francisco, CA. The purpose of this project is to remediate residual

concentrations of petroleum hydrocarbons in the subsurface soil and groundwater at the site. The site is a former gasoline service station.

PRELIMINARY EVALUATION

The District has evaluated the permit application for the proposed project and has made a preliminary determination that the project is expected to comply with all applicable District, state, and federal air quality-related regulations, including the health risks resulting from toxic air contaminant emissions. The preliminary recommendation is to issue a permit for this project. After considering all comments received, the District will make a final determination.

ADDITIONAL INFORMATION

If you are interested in getting more information, you may request copies of the District's evaluation report by calling the District at the telephone number listed at the end of this notice. This information also accessible on the District website at:
