Dear Ms. Jordan:

This is to advise you that the Bay Area Air Quality Management District is proposing a minor revision to the Major Facility Review Permit for Chevron Products Company and is submitting the permit to EPA for review.

The purpose of this minor permit revision is to incorporate minor revisions that have been reviewed and approved through ten District New Source Review applications and one Title V administrative amendment application. The proposed revisions are described in the attached Statement of Basis.

Because the proposed revision is minor pursuant to BAAQMD Regulation 2-6-215, it is not subject to public comment and it will be effective immediately. The revised permit will be formally issued after the 45-day EPA review period has ended.

The proposed Major Facility Review Permit and the Statement of Basis can be viewed on the BAAQMD website at:

<http://www.baaqmd.gov/Divisions/Engineering/Title-V-Permit-Programs/Title-V-Permits.aspx>. We will also send the documents to you via the Electronic Permit Submittal System. If you have any questions regarding this project, please contact Dennis Jang, Senior Air Quality Engineer, at (415) 749-4707 or djang@baaqmd.gov.

Sincerely,

Signed by Jeff McKay for Jack P. Broadbent
