

December 16, 2004

Ms. Deborah Jordan  
Acting Director, Air Management Division  
**United States Environmental Protection Agency**  
75 Hawthorne Street  
San Francisco, CA 94105

Dear Ms. Jordan:

The requirements for public and EPA review of the following proposed reopening to a Major Facility Review Permit have been completed:

Facility #	Facility Name	Application #
A0016	ConocoPhillips-San Francisco Refinery	9296

The District sent the formal notice of reopening pursuant to BAAQMD Regulation 2-6-415 on December 15, 2003. The District invited public comment on the proposed changes to the permit and on changes made to the draft permit published on August 12, 2003, as reflected in the final permit issued on December 1, 2003. The notice was published in the Contra Costa Times on March 1, 2004. The final date for comments was March 31, 2004, but was extended to April 14, 2004. The District received comments from the public, EPA, and the facility. The District amended the permit in response to comments and sent the proposed permit to EPA for review on August 25, 2004. EPA commented on the permit on October 8, 2004.

The District has decided to issue the permit.

The District has made some changes in response to the comments received. These changes are discussed in the revised Statement of Basis/Permit Evaluation, dated December 2004. Responses to Comments have been prepared for EPA and all members of the public who commented. A formal response to the refinery's comments will be transmitted to you within 30 days of this letter.

EPA in its October 8, 2004, letter identified a number of issues requiring follow-up and, as appropriate, further revision to the permit. The District is committed to addressing these issues through a cooperative effort with EPA. Among the most important issues are those identified in Attachment 1 to the October 8 letter. The District's first step in addressing the Attachment 1 issues will be a proposed determination to be transmitted to EPA on or before January 6, 2005.
