

Gary,

They are the same. I will make sure the dates are consistent and add a sentence or two indicating that the permit will then be submitted to EPA for 45 days review in the TV permit public notice section.

Thanks,
Thu

Subject: Re: Updated Information Regarding Lehigh Facility

Thu,

I received the email from Kristina Chu with the public notice that BAAQMD is accepting written comments regarding the Lehigh Title V permit. I am a little confused because the District web with the Lehigh permit shows the public notice posted on January 10, 2011, (not the 21st), and the notice posted on the web site says it was posted on January 7, 2011, (not the 21st). Are these different notices, or the same one? Also, is there a document posted that describes the next steps that BAAQMD will take following the March 25, 2011, deadline to submit comments?

Thanks.
