Subject: Lehigh Cement Factory

Ms. Bui,

I strongly recommend not extending permit for Lehigh Cement factory's continued operation in Cupertino.

It is ridiculous in my opinion that a factory that emits toxic gases is still allowed to operate in the midst of a community in this day and age. Are we living in the US of A or some third world country?

It would be a disaster if our community leaders do not realize the danger in extending this permit and allow our neighborhoods to deteriorate.

Thank you for your consideration.

Ram
