Subject: Please do not renew Lehigh Southwest Cement Company's Permit

We live at 1047 Pennington Ln, Cupertino. We have 2 children who suffer from asthma. I am really concerned about the continued operation of a cement plant in this community. Given the hazardous and toxic gases and the associated pollution, I and am sure several concerned citizens of Cupertino are strongly against the granting of permit to the cement company for another 5 years. Given the attention to global warming and air quality, an approval would be seen as a clear disregard to the concerns of us regular citizens. The cement factory and the associated trucking traffic in our community is also a serious hazard for us.

I am hopeful that the cement company will not be issued a permit to operate and be reallocated to another area that isn't in close proximity with so many citizens.

Thanks and Regards,
Prasad Kodur
