Subject: "Z" Approve US Pipe Permit to Operate

January 19, 2005

To whom it may concern:

This is to request that US Pipe and Foundry's permit to operate be renewed for as long as possible. I have been a neighbor living within a few blocks of US Pipe for over 14 years and drive pass them on Whipple all of the time. They have been good neighbors, and I wish all of the other businesses would be so considerate of their surroundings.
