Subject: US PIPE & FOUNDRY IN UNION CITY

January 19, 2005

REF: REPORT IN THE ARGUS DT JAN 19, 2005 ASKING RESIDENTS TO RAISE OBJECTION

Dear Sirs,

Emissions pollution has been a major and increasing health concern and hazard for all bay area residents. Lead emissions are deadly for infants and create lifelong health problems in children causing pain, suffering and death and taxing health services leading to large unnecessary expenditures.

All and any large industrial pollution contributor like this foundry should be relocated away from densely populated areas for obvious reasons. Large incentives should be provided by the government for this purpose to the industry and its employees to relocate if necessary.

The foundry's permit should not be renewed under any circumstance.

Thanking you in anticipation.

Sincerely,
Godrej Kerawalla
5028 Bridgepointe Place
Union City, CA 94587

cc: Mr Bart Amin, Board Member
Bridgepointe Place Home Owners Association
5030 Bridgepointe Place
Union City, CA 94587

Suggest an objection letter/email may please be sent by the HOA representing all 110 owners before the February 15, 2005 deadline.
