Jack P. Broadbent  
EXECUTIVE OFFICER/APCO

Dear Ms. Jordan:

This purpose of this letter is to cancel the Title V permit for the facility above. The facility was issued a Title V permit on November 1, 2001, because it was a major source of regulated air pollutants. On October 23, 2003, the District cancelled the District permit because the inspector had reported that the facility had shut down and the facility did not renew the District permits as required by September 1, 2003. The facility has not responded to requests for a formal cancellation letter.

The cancellation is effective as of the date of this letter.

The District will also notify the California Air Resources Board and the facility in writing that the permit has been cancelled.

If you have any questions regarding this matter, please call Steve Hill, Air Quality Engineering Manager, at (415) 749-4673.

*Sincerely yours,*

---
