Ms. Deborah Jordan
Director, Air Management Division
United States Environmental Protection Agency
75 Hawthorne Street
San Francisco, CA 94105

Subject: Minor Revision to the Major Facility Review Permit for Shore Terminals, LLC:

Dear Ms. Jordan:

This is to advise you that the Bay Area Air Quality Management District is proposing a minor revision to the Major Facility Review Permit for the following facility.

Facility	Facility Name	Application	Permit Engineer	City	County
A0581	Shore Terminals, LLC	11862	T. Bui	Crockett	Contra Costa

The purpose of this minor permit revision is to make the following changes to the Title V permit:

- Condition # 6184, Part 3 is changed to increase the liquid loading into storage tanks S-32 through S-45 from 145,000 barrels per day to 250,000 barrels per day under District's new source review application # 11861.
- Condition # 6184, Part 9, the statement "150 lb/day, nor shall the Cumulative Increase from this facility exceed" is deleted to be consistent with the change from Part 3 under District's new source review application # 11861.
- Modified Tables IV-A, B, C, F, I, and Tables VII-A, B, C, F, and H that were associated with the amended Regulation 8-5 - Storage of Organic Liquids, which was adopted on 11/27/02
- Remove the SIP requirements of Regulation 8-5 in Tables IV-A, B, C, F, I and Tables VII-A, B, C, F, and H because the current rule was adopted into SIP in June 5, 2003.
- The type of limit was changed from NO₂ to NO_x in Table VII-D for S-22, Gasoline Loading Racks.
- The type of limit was changed from PM to PM(PM₁₀) in Table VII-D for S-22, Gasoline Loading Racks.
- Monitoring requirement citation 8-18, Section 401 was added, and monitoring frequency of valves and flanges was changed from 10 years to quarterly in Table VII-I – Components.
- The definition of "NO₂ - Nitrogen Dioxide" was added to the glossary.
- The definition of "vessel calling" was added to the glossary.
