San Francisco, CA 94105

Re: **Central Contra Costa Sanitary District – Facility #A0907**
Minor Revision to Major Facility Review Permit

Dear Ms. Jordan:

This is to advise you that the Bay Area Air Quality Management District is proposing a minor revision to the Major Facility Review Permit for Central Contra Costa Sanitary District (Facility Number A0907).

The main purpose of this minor revision application is to address final abatement requirements to demonstrate and maintain compliance with Regulation 8-34 for landfill gas combustion operations. Other changes include improved particulate monitoring, correction of typos, addition of clarifying wording, and deletion of requirements that had sunset provisions. All of the revisions (both minor and administrative) are listed and discussed in the Engineering Evaluation which will serve as the Statement of Basis for this minor revision.

A copy of the proposed permit and the engineering evaluation are enclosed for your information. If you have any questions on this matter, please call **Steve Hill, Air Quality Engineering Manager, at (415) 749-4673.**

Very truly yours,

Jack P. Broadbent
Executive Officer/
Air Pollution Control Officer
