Ms. Deborah Jordan
Director, Air Management Division
United States Environmental Protection Agency
75 Hawthorne Street
San Francisco, CA 94105

Subject: Minor Revision to Major Facility Review Permit for Facility # A1179

Dear Ms. Jordan:

This is to advise you that the Bay Area Air Quality Management District is proposing a minor revision to the Major Facility Review Permit for Redwood Landfill, Inc., Facility Number A1179, and is submitting the permit to EPA for review.

Jack P. Broadbent
EXECUTIVE OFFICER/APCO

The main purposes of this proposed permit revision are to revise permit conditions for VOC laden soil operations, to modify the landfill gas collection system, to correct the minimum flare temperature for the new A-51 Flare, to modify throughput limits for S-41, and to clarify the applicability for A-18 Water Sprays. The District is also proposing administrative amendments to correct the contact person on the title page and to remove equipment that has been permanently shut down. These revisions will not result in any emission increases.

This revision is minor pursuant to BAAQMD Regulation 2-6-215 and will be effective immediately. The permit will be formally re-issued after EPA review. This revision is not subject to public comment and therefore, requires no public notice.

A copy of the proposed revisions to the Major Facility Review Permit, the statement of basis report for application numbers 12966 and 13026, the engineering evaluations for the related application numbers 12967, 13027, and 13811, and the permit to operate report for application number 11757 are enclosed for your review. If you have any questions on this matter, please call **Steve Hill, Air Quality Engineering Manager, at (415) 749-4673.**

Sincerely,

Jack Broadbent
Executive Officer/Air Pollution Control Officer
