Re: Cancellation of Title V permit for Facility A1317, WinCup Holdings, LP

Dear Ms. Jordan:

This is to inform you of the cancellation of the Title V permit for the facility cited above. The renewal Title V permit was issued for this facility on May 15, 2006. Wincup was subject to Title V because it had the potential to emit more than 100 tons per year of volatile organic compounds. According to the attached letter from Jim Griffiths of New WinCup Holdings, Inc., the facility shut down on April 22, 2011 and all equipment had been dismantled by May 20, 2011. The District permits were cancelled on May 20, 2011.

The cancellation of the Title V permit is effective as of the date of this letter.

The District will also notify the California Air Resources Board and the facility in writing that the Title V permit has been cancelled.

If you have any questions regarding this matter, please call Barry Young, Air Quality Engineering Manager, at (415) 749-4721.

Sincerely yours,

Signed Jeff McKay for Jack P. Broadbent
